

THE WORK OF MARIANNE PASMANS

This month we feature the works of Dutch artist Marianne Pasmans, for who Bahrain has been home for 20 years and who we profiled last month in Gulf Insider. These are amongst her latest works that were commissioned by the newly opened The

Domain Hotel and have been reproduced as prints that hang in all rooms as well as in communal areas.

Marianne is currently working on a future duo exhibition that will be a combination between her paintings and sculptures. She is also finishing a book of photography focusing on Bahrain's declining plantations which she believes have a unique beauty worth capturing and preserving. **GFI**
